Apr,08.2006-20:31

Greetings to all on this forum. My friend Frank posted the web site a few days ago and we have sat back and watched some of the talk. We are glad someone is talking about this. We hope you are enjoying the discussion. As far as what this electric steel drum is, or isn't, man just hold some strain!

Keep checking the web site www.electricsteeldrum.com for further developments.

EDS-Panman
